

Timothy David Glotch
Department of Geosciences, Stony Brook University
<http://cpex.labs.stonybrook.edu/tglotch>
<https://ris4e.labs.stonybrook.edu>

Education

Ph.D., 2004: Geological Sciences, Arizona State University
B.A., 1999: Astrogeophysics, Colgate University

Employment

2012-present Associate Professor, Stony Brook University
2007-2012: Assistant Professor, Stony Brook University
2006-2007: Caltech Postdoctoral Scholar at JPL
2005-2006: Postdoctoral Scholar, California Institute of Technology
2004-2005: Postdoctoral Research Associate, Arizona State University

Courses Taught

GEO 102: The Earth
GEO 106: Planetary Geology
GEO 330/530: Geology of Mars
GEO 604: Geology of the Moon
GEO 604: Mineralogy and Geochemistry of Mars
GEO 604: Advanced Spectroscopic Methods
GEO 607: Geology of Saturn's Moons
SSO 102: Diamonds

Advising

Sarah Nicholas	Postdoc	2017-present
Congcong Che	Postdoc	2012-2017
Mehmet Yesiltas	Postdoc	2015-2016
Yang Liu	Postdoc	2013-2014
Jessica Arnold	Postdoc	2014
Laura Breitenfeld	Ph.D.	current
Allison Zastrow	Ph.D.	current
Jordan Young	Ph.D.	current
Brooke Phillips	Ph.D.	current
Cheng Ye	Ph.D.	current
Carey Legett IV	Ph.D.	current
Melissa Sims	Ph.D.	current
Melinda Rucks	Ph.D.	current
Gen Ito	Ph.D.	2018
Katherine Shirley	Ph.D.	2018
Steven Jaret	Ph.D.	2017
Lonia Friedlander	Ph.D.	2014
Elizabeth Sklute	Ph.D.	2014
Jessica Arnold	Ph.D.	2014
Congcong Che	Ph.D.	2012

Hedi Jensen M. S. 2011

Honors and Awards

2018: SUNY Leadership Academy Fellow
2015: NASA Group Achievement Award for Diviner Lunar Radiometer Experiment
2013: NASA Group Achievement Award for Diviner Lunar Radiometer Experiment
2012: NSF CAREER Award
2004: NASA Group Achievement Award for Mars Exploration Rovers
2003: NASA Group Achievement Award for 2001 Odyssey THEMIS
2001-2004: NASA Graduate Student Researcher Program Fellow
1999: Founders Award, Colgate University Department of Physics and Astronomy

University Service

Fall 2017: Panelist for CAS “College and Careers: How to Choose a Major” event at Ward Melville High School
Fall 2017: Organized Department of Geosciences table for 1st Annual CommUniversity Day.
Summer 2017: Participant in CAS Pre-College Institute Quiz Bowl
Summer 2017: Chair of search committee for Director of the Office of Sponsored Programs
Spring 2017: Organized Geosciences table at annual Port Jefferson Mini-Maker Faire
Spring 2017: Moderator and panelist for OVPR NSF CAREER Award Workshop
Spring 2016-Fall 2017: Member of search committee for Dean of SOMAS
Spring 2016-Panelist for OVPR NSF CAREER Award Workshop
Spring 2016: Organized Geosciences table at annual Port Jefferson Mini-Maker Faire
Spring 2015: Organized Geosciences table at annual Port Jefferson Mini-Maker Faire
Fall 2014: Stony Brook University Astronomy Open Night lecture and observing for International Observe the Moon Night
Fall 2012-Spring 2018: Served on Undergraduate Recognition Awards selection committee.

Departmental Service

Fall 2014-present: Graduate Program Director
Spring 2008-Spring 2013: GEO Major Advisor
Fall 2007-Spring 2013: Undergraduate Committee
Fall 2009-Fall 2012: Library Liason

Professional Service

Associate Editor, *Journal of Geophysical Research—Planets*, 2012-present
External reviewer for NSF EAR Petrology and Geochemistry program
External reviewer for NSF Major Research Instrumentation program
External reviewer for NASA MDAP, MFRP, and NLSI programs
Panel member for NASA MFRP, MDAP, PIDDP, MIDP, MMAMA, SALMON, Mission Participating Scientist, and Discovery Step 2 review panels
Panel chief for NASA LASER, LDAP, and SSW review panels
Reviewer for journals *JGR-Planets*, *Icarus*, *Geology*, *American Mineralogist*, *Earth and Planetary Science Letters*, *Meteoritics and Planetary Science*, *Spectroscopy Letters*, *Nature Communications*, *Nature Geoscience*

Convener, *Workshop on Space Weathering of Airless Bodies*, Nov. 2-4, 2015.
1999-Present: Numerous public outreach and education presentations

Professional Membership

American Geophysical Union
Geological Society of America
American Astronomical Society Division of Planetary Sciences
Mineralogical Society of America
New York Academy of Sciences

Invited Talks:

Colgate University—October, 2016
International Symposium on Lunar and Planetary Science, Wuhan, China—June, 2016
Lafayette College—February, 2016
University of Pittsburgh—November, 2015
University of Western Ontario—October, 2015
NASA Headquarters Seminar—October, 2014
3D Raman Imaging and Correlative Scanning Microscopy Techniques Workshop, Harvard University—August, 2014
Lunar and Planetary Institute—July, 2012
University of Toronto—October, 2010
American Museum of Natural History—April 2009
Stony Brook University—March, 2007
Dartmouth College—February, 2007
Brown University—April, 2006
Colgate University—September, 2005

Funded Research

NASA SSERVI: Remote, In Situ, and Synchrotron Studies for Science and Exploration (RIS⁴E), PI, 2014-2019, Total Budget: \$5.48M.

NASA MDAP: Geologic and quantitative spectral characterization of carbonate-bearing lithologies on Mars, PI, 2018-2020, Total Budget: \$305.9k

NASA OSIRIS-REx Participating Scientist Program: Radiative Transfer and partial least squares modeling of OTEs and OVIRS spectra in support of the asteroid operational phase of the OSIRIS-REx mission, PI, 2018-2020, Total Budget: \$456k.

NASA PDART: Ultraviolet through mid-infrared optical constants of minerals and glasses relevant to planetary spectroscopic analyses, PI, 2018, Total Budget: \$51.4k.

NASA Diviner Lunar Radiometer Science Mission, Co-I with PI David Paige, UCLA, 2011-present, Total Budget for Glotch: \$356.5k

NASA SSW: Spectroscopy of salt-bearing mineral assemblages, PI, 2015-2018, Total Budget: \$281.5k

NASA LASER: Reflectance and Emission Spectroscopy (0.35-100 μm) in a Simulated Lunar Environment, PI, 2013-2017, Total Budget: \$456k.

NASA PG&G: Spectroscopy of nanophase materials, PI, 2014-2017, Total Budget: \$358k.

NASA PG&G: Spectral and petrologic analyses of minerals and rocks subjected to high pressures, CO-I with PI Jeffrey Johnson, APL, 2014-2017, Total Budget: \$312k (117.3k for Glotch)

NASA MFRP: Infrared and Raman spectroscopic study of biosignature preservation in terrestrial clay-rich sediments: Implications for Martian astrobiological exploration, PI, 2014-2017, Total Budget: \$233k

NASA MDAP: Spectroscopic and geologic analyses of chloride salt deposits on Mars, PI, 2014-2016, Total Budget: \$187k

NASA PG&G: Pyroxene Spectroscopy: Composition, Structure and Thermal History, Co-I with PI Rachel Klima, APL, 2013-2016. Total budget: \$347k (\$58.7k for Glotch).

NSF CAREER: CAREER: Fundamental Measurements of Mineral Optical Properties and Theoretical Treatment of Light Scattering at Infrared Wavelengths, PI, 2012-2017, Total Budget: \$494k.

NASA LASER: Understanding the Formation and Evolution of Mixed-Origin Terrains in the Copernicus Lunar Quadrangle (LQ10), Co-I with PI Justin Hagerty, USGS, 2012-2015, Total Budget: \$345K (\$26.5k for Glotch)

NASA MDAP: Dehydrated and dehydroxylated clays on Mars: Assessment of post-depositional alteration of Martian sedimentary deposits, PI, 2012-2015, Total Budget: \$318k.

NASA PG&G: Integrated spectroscopy of pyroxenes: composition, structure, and thermal history, Co-I with PI Rachel Klima, APL, 2011-2012, Total Budget: \$100k (\$25k for Glotch).

NASA MFRP: Effects of shock metamorphism on phyllosilicate spectroscopy, Co-I with PI Joseph Michalski, PSI, 2010-2013, Total Budget: \$453k (\$84.6k for Glotch).

NASA MMAMA: Evaluating new instrument technologies and operational procedures critical for maximizing science during field studies of basaltic terrains on the Earth, Moon, and Mars, Co-I with PI Jacob Bleacher, NASA Goddard, 2009-2013, Total Budget: \$287k (\$0k for Glotch).

NSF MRI: MRI: Acquisition of Imaging Micro-FTIR and Micro-Raman Spectrometers in Support of Research at Stony Brook University, PI, 2009-2010, Total Budget: \$340k.

NASA MFRP: Infrared, NMR, and X-ray Characterization of Dehydration and Dehydroxylation of Clay Minerals, PI, 2008-2012, Total Budget: \$297k.

NASA MDAP: Geologic Characterization of Likely Chloride Salt Deposits on Mars, PI, 2008-2012, Total Budget: \$260k.

NASA LRO PS: Compositional Variability of the Lunar Surface from the Diviner Lunar Radiometer Experiment and the Lunar Reconnaissance Orbiter Camera, PI, 2008-2011, Total Budget: \$347k.

NASA MDAP: Analysis of Layered Terrains near Mawrth Vallis: Comparisons with Meridiani Planum, Co-I with PI William Farrand, SSI, 2006-2009, Total Budget: \$205K (\$32.9k for Glotch).
